B.Sc. Computer Science graduate (GPA 90), building full-stack web applications with React, Node.js/Express, and MongoDB. Seeking a Junior Full-Stack Developer or Software Developer role to build and deliver end-to-end features.

Projects

Cost Manager - MERN Full-Stack Expense Tracker

- Built a REST API in Express/Node.js to create and retrieve expenses; persisted data in MongoDB with basic schemas.
- Developed a React UI for adding expenses and viewing lists/reports, using forms and reusable components.
- Implemented the end-to-end client↔server flow with separate client and server projects for clean structure and deployment readiness.

Technical Skills

- **Frontend:** React, HTML5, CSS, JavaScript, TypeScript
- **Backend:** Node.js, Express, REST APIs, MongoDB, SQL
- **Programming:** C, C++, C#, Python
- **Tools:** Git/GitHub, Linux basics, SAP/ERP

Education

HIT - Holon Institute of Technology, B.Sc. in Computer Science
GPA: 90

2024-2026

Full-Stack Web Development Training

2025-2026

- **Web Development Bootcamp** (Udemy): Full-stack fundamentals - HTML/CSS/JavaScript, Git, and building projects from small exercises to basic apps.
- **MERN Full-Stack Guide** (Udemy): End-to-end development with Node.js/Express and MongoDB (Mongoose): REST APIs, CRUD, JWT auth, Axios, and basic deployment.
- **React - The Complete Guide** (Udemy): Components, Hooks, state management, forms, routing, responsive UI; building API-driven interfaces.

Military Service

IDF Navy - Logistics & Operations (SAP/ERP)

2018-2021

- Managed procurement and transport logistics for unit events using SAP/ERP; processed orders and coordinated deliveries under tight timelines.
- Took on team-lead responsibilities, coordinating several soldiers and maintaining accurate records and approvals.
